# Announcing OpenAthens as 2020 Product of the Year

We love making access to knowledge easy and we're delighted the judges agreed – **thank you!**

*"Our experience with this product has been a delight."*

*"I cannot emphasize how much WE LOVE OpenAthens."*

*"The customer service and support from OpenAthens is wonderful."*

# 2020 MODERN LIBRARY AWARDS

The 2020 Modern Library Awards (MLAs) is proud to announce its review scores from participating companies in this special supplement to *Library Product News*. The MLAs are an unbiased program recognizing the elite products and services that serve the library industry. Companies provided concise write-ups of their products/services and submitted them for review. These were then sent out to the LibraryWorks readership — librarians in public, academic, K-12, and special libraries — who then submitted their reviews on a 1-10 scoring system. Each judge had to have had experience with the product or service, and each participating company also had to provide four references of library placements to submit their forms. The LibraryWorks staff had no influence on the scoring. Awards were based on the following scores:

6.5-7.4 Silver      7.5-8.4 Gold      8.5-10.0 Platinum      Highest Overall Scores – Product of the Year and Service of the Year

The 2020 roster of products awards includes:

## OpenAthens

OpenAthens develops and supports identity and access management software that allows millions of people to quickly and easily find the information they're looking for. But how do we achieve this? Well, we've made single sign-on simple by doing all the heavy lifting ourselves, making seamless access to knowledge easier than ever before.

Incorporating new software into current IT systems doesn't have to be hard work. OpenAthens removes unnecessary complications, by seamlessly slotting into existing systems and working with it to provide the best experience possible.

OpenAthens establishes one set of

log-in credentials for all library resources and applications and integrates with institutions who use IP authentication. Single links are created that allow patrons access to information needed whether they are located within their organization or off-site.

OpenAthens provides flexible control for managing access rights to groups of users. Using new or existing attributes, librarians can control access to specific resources based on licenses as well as the structure and strategic focus of their organization.

Comprehensive usage statistics show how often content is accessed and by whom providing insight into the value of subscriptions and detail of which parts of the organization engage most regularly with services.

OpenAthens makes it easy for people to access the knowledge they want when they want it. That's exciting. You never know what they might end up going on to achieve.

### HEAR FROM THE JUDGES:

“We cannot recommend OpenAthens highly enough. It is a gem that has made our lives, teaching practices, and resource access much, much, much easier.”

[\[CLICK HERE FOR MORE\]](#)

Dear Reader,

I hope you enjoy the 2020 Modern Library Awards special edition and that you take advantage of the outstanding products and services offered by these respected companies. Our entire team would like to thank all the judges and applicants who made the 2020 program such a success. Your enthusiasm and encouragement kept us going through another very busy award season, and we were overwhelmed by the positive response.

Congratulations to the following judges who were randomly drawn to win a \$25 Amazon gift card: Tierney M., Holt K., William M., Ryan I., Paul M., Lynn P., Lisa C., Kathleen C., Peter O., Jane F., Andrea Z., and Rachel T.

If you are a librarian and are interested in acting as a judge for the 2021 Modern Library Awards, please email the following information to [jenny@libraryworks.com](mailto:jenny@libraryworks.com): name, title, email address, and library name.

If you have a product or service that you would like to enter in the 2021 Modern Library Awards, please email the following information to [sharon@libraryworks.com](mailto:sharon@libraryworks.com): name, title, email address, company name, and product/service name(s).

Products that were entered in the 2020 Modern Library Awards are eligible to be entered into the 2021 program.

If you have any questions regarding the MLAs or thoughts to improve, I'd love to hear from you! Please feel free to contact me. We look forward to seeing many of you in Philadelphia at the ALA Midwinter Conference.

Best regards,

*Jenny*

### ABOUT LIBRARYWORKS

LibraryWorks helps administrators to make informed decisions about library technology, automation and software, collection development and management, facilities and furnishings, staffing, purchasing, and other areas that drive effective strategic planning and day-to-day operations. Our family of resources can enable you to identify best practices, monitor trends, evaluate new products and services, apply for grants and funding, post or find a job, and even enjoy some library humor.

The Modern Library Awards (MLA) and LibraryWorks, Inc. are not responsible for representations made by MLA honorees.

Overton & Associates, LLC

### LIBRARY MOVING CONSULTANT

Overton & Associates, Library Move Consultants, was developed in 2006 with the intentions of assisting libraries throughout the library move process. The owner, Bill Overton, has been exclusively moving libraries for over 32 years encompassing 750 projects.

We believe the planning process is the key ingredient to a successful move. By proper planning, a library move can be a stress free, anxiety free project utilizing local labor. By providing the tools to volunteers/local workers and giving the library the opportunity to move their own collection, our clients have saved over \$500,000. Coordinating over 50 volunteers for a public library or utilizing local labor for a University that entailed over eight months of moving, our goal was achieved by creating enthusiasm, identifying problems during the planning stage, and executing a labeling system that simplified the move process.

It is important for librarians to gather as much information from a variety of sources. That is why Bill Overton has been on numerous panels that discusses how to move libraries. Bill was highlighted at the Pennsylvania Library Convention as he discussed how to move a library with volunteers.

Bill had authored an article in Strategic Library, a trade magazine designed to

reach Library Directors. The title of the article, "Renovating: The Books Are In The Way" discusses how library moves have changed over the past thirty years and the growing concern of balancing book stacks and open/flexible seating.

### HEAR FROM THE JUDGES:

“When curves were thrown at Overton & Associates with the move requirements, he and his team was able to support it with solutions that met our needs. His knowledge of the compact shelving and vendors was extremely helpful during negotiations with our shelving vendor. Bill Overton is professional, knowledgeable in his industry and was a pleasure to work with.”

### Atlas Business Solutions, Inc.

### SCHEDULEANYWHERE

ScheduleAnywhere online employee scheduling software allows libraries and library systems to create an unlimited number of online schedules from any computer or mobile device. This easy-to-use software is ideal for libraries of all sizes, including those with multiple departments or locations.

Administrators can assign tasks to each shift and can instantly view how many employees are scheduled by location, shift and service point. Schedules can be shared with multiple departments, branches and locations, so managers always know which employees are scheduled and where they are assigned to work.

Managers, employees and volunteers can access work schedules remotely to effectively communicate and manage scheduling needs. Users can request and approve time-off and review coverage and staffing needs anytime, from any location. Employees are notified when their schedules are posted or changed. Developed by Atlas Business Solutions Inc., ScheduleAnywhere ensures proper shift and service point coverage and fundamentally reduces scheduling errors and conflicts. The software also tracks certifications and training, manages staff availability, and can estimate labor costs. Software upgrades are administered automatically, and live support is included at no additional charge. Free trial ac-

## AWE Learning

### EARLY LITERACY STATION PLATINUM

Early Literacy Station™ Platinum (ELS Platinum), for ages 2-8, was officially launched in January 2019 to bring a new and improved digital learning resource to public libraries. As an enhanced version of our flagship Early Literacy Station™, ELS Platinum features brand new avatars, interfaces, and animations, and a brand-new content suite of 75+ STREAM-aligned educational software titles. Interface themes include the beach, fairytale, and arctic. As a plug-and-play pre-loaded workstation, available as a 20-inch touchscreen or tablet device, ELS Platinum does not require an internet connection, creating a safe learning environment for young patrons in the library.

All content is engaging, fun, and interactive. Early learners can learn about cyber safety with Garfield, read or listen aloud to both fiction and non-fiction e-books, practice their handwriting, build coding skills, and much more! With multi-touch functionality, ELS Platinum is ideal for both independent and collaborative learning opportunities.

Libraries also receive homeschooling and programming resources to help plan weekly lessons and library events, as well as access to the Customer Portal to track usage. New with the Early Literacy Station Platinum, libraries have the option to add

on a Content Bundle, including a Coding Add-On, allowing you to offer more content on the workstation for your early learners.

## Biblionix

### APOLLO

The ApolloSM ILS/LSP continues to help customers reach new heights. Apollo was designed from the start to be cloud-based in a multi-tenant environment. That's state-of-the-art architecture. As Marshall Breeding stated "Apollo stands apart as a public library system delivered by a modern multi-tenant platform..."

Also in the clouds are Apollo's accolades:

- Product of the Year from Modern Library Awards for 2016 AND 2017
- Top of the charts in Breeding's Perceptions surveys for 10 straight years, to the present
- Modern Library Awards, Platinum Award 2015, 2018, 2019
- An extraordinary customer retention rate of over 99% over 13 years

Apollo is solely for public libraries. That's a promise we've made to our customers. There are no schools or colleges that use Apollo. So, it's not cluttered with capabilities that you don't need. Our brains aren't cluttered either; all we think about is public libraries.

Groundbreaking capabilities are normal with Apollo, like VersaCard® ad-hoc resource sharing/consortia and GabbieSM, 2-way texting with patrons. Then there's Reserve ExpressSM, where patrons subscribe to their favorite authors, media, and series. Plus, there's a "Kids' Catalog", faceted searching, and SQL querying.

Begin your exploration of Apollo with a free trial with all of your data. You get to see everything as it will be in a real migration and still use your current system as you always do. It's simply the best way to evaluate a new system and avoid surprises.

## bibliotheca

### CLOUDLIBRARY

Beginning as a lending system for ebooks and eAudiobooks, cloudLibrary by bibliotheca is an evolving digital solution offering an exceptional user experience that allows libraries to integrate their physical and digital experiences through the use of three mix-and-match modules.

With easy sign-in and one-click borrow and download, the cloudLibrary content module allows users to browse your collection and be reading in seconds, with no need to visit multiple sites or log in to multiple platforms. The feature-rich app includes the ability to publicize library events, recommend titles, and more. In addition to conventionally purchased digital titles, cloudLibrary also offers pay-per-use titles and the ability to share digital titles with participating libraries through cloudLink, maximizing library budgets and circulation.

Continuous innovation has resulted in two new cloudLibrary modules: cloudLibrary assist and cloudLibrary checkout. Both modules can be used independently of cloudLibrary content. cloudLibrary assist provides a virtual library card and allows

**ScheduleAnywhere Library Staff Scheduling Software Wins MLA Platinum!**

**ScheduleAnywhere®**  **Try it FREE!**

users to manage their loans, favorite items, receive reminders, and switch between multiple family accounts. The checkout module enables users to check out physical items directly from their smartphones and provides interactive receipts that let readers favorite, renew, and sort and filter items, truly integrating the physical and digital library experience.

[\[CLICK HERE FOR MORE\]](#)

## bibliotheca

### OPEN+

open+ is a comprehensive system that allows libraries to provide more flexible hours, extending library access and making library resources more available to the communities they serve. The open+ solution allows libraries to easily control building access, security, and automation through one efficient central management hub.

Seamlessly integrating with existing ILS/LMS and library solutions, open+ enables libraries to complement existing staffed hours with unstaffed open hours while monitoring library activity, computer access, PA announcements, and more. Using the in-app virtual library card feature, users can also access library spaces with the cloudLibrary app. The integration between open+ and cloudLibrary creates a better overall library experience for busy users who may forget their library card when visiting.

The flexibility to provide unstaffed hours allows libraries to increase the use of their space and resources, grow circulation, and focus on community outreach.

In use in over 750 libraries in Europe for over a decade, bibliotheca's open+ is now available to North American libraries, as well.

## BookBrowse.com

### BOOKBROWSE FOR LIBRARIES

BookBrowse for Libraries is an affordable, reader-focused, and user-friendly readers' advisory resource.

Exceptional books don't just entertain, they also enlighten and make us step outside of ourselves; BookBrowse seeks out such books across a range of genres, including adult fiction and nonfiction, and select YA.

People don't have time to read about all the new books published, let alone read all of them, so BookBrowse focuses on depth, not breadth, offering a curated resource of the best contemporary books, and providing the information readers need to decide which titles are right for them.

BookBrowse's editorial focus coupled with its extensive reading group resources make it a particularly valuable destination for book club members.

Resources include:

- Hand-picked read-alikes for thousands of books
- Recommended reading lists by genre, time period, setting and theme
- Extensive book club resources including reading guides, discussions and advice.
- In-depth reviews
- "Beyond the book" articles that explore the historical, cultural and contextual aspects of each featured book
- Previews of notable books publishing soon
- Twice-monthly online magazine, plus email notifications

- Links from each book to the relevant page in the library's OPAC

Annual subscriptions start from \$230 for unlimited in-library and remote access, and \$115 for in-library only access.

### HEAR FROM THE JUDGES:

"I use this resource to find titles for my book group at the library. I especially like how books are put into various categories, making it very easy to select the specific topic you'd like to read about. I also love the Book Group Interviews. I have found great recommendations for books, and advice on how to deal with difficult situations. Their love of books, and their willingness to assist libraries is truly appreciated."

"The Book Browse staff is wonderful in that they listen to any concerns & questions that you have. The response turn around time is fast and the product is first rate. It serves not only as a tool for reader's advisory, but is current and user-friendly. I recommend this product."

## Brainfuse

### HELPNOW

Brainfuse's HelpNow is a suite of services that provides full academic support to library patrons throughout North America. HelpNow's features include live, one-to-one online homework help, a full-service writing lab, a lesson library, practice tests, and much more. HelpNow is available in hundreds of library systems in the United States and Canada, including Suffolk County, San Francisco, Sacramento, Toronto, Los Angeles County and Chicago (America's largest online homework help program).  
Beyond Homework Help: HelpNow

provides the most comprehensive range of academic services available among online tutoring platforms, including live skills tutoring and a robust library of educational content.

**Field-Tested Tutoring:** Brainfuse consistently outperforms other online tutoring companies in head-to-head trials conducted by library systems.

**High-Quality Tutors:** All Brainfuse tutors have 4-year college degrees and undergo a rigorous selection and training process.

**State-Aligned Services:** All online tutoring, skills lessons, and practice tests are aligned to State and Common Core Standards.

We are one of the most experienced tutoring companies in North America, having completed over 10 million one-to-one online tutoring sessions since 1999. We remain committed to providing high-quality academic support and continually meet student needs through innovative features and services. Learn more at [brainfuse.com](http://brainfuse.com).

## Capira Technologies

### CAPIRAMOBILE

Libraries can now reinforce their role as a key social infrastructure element in their community by putting messaging about programs, events, classes and more in their patrons' hands through push notifications when they have Capira Technologies- App Developers for Libraries as their app provider.

Libraries can also promote healthy patron account behavior through in-app account notifications reminding them to take action about holds, overdues, card expiry and more with CapiraMobile.

Connect them with the collection, their accounts, calendar, e-resources and more with beautiful 100% custom design in apps by Capira Technologies.

[\[CLICK HERE FOR MORE\]](#)

## Capira Technologies

### MUSEUMKEY

MuseumKey is a library service platform (LSP) designed to manage and circulate a collection of physical and printable venue passes, often known as museum passes. Many public libraries have partnered with local museums and attractions to provide free or discounted access through either a physical membership card, disposal voucher or printed admission ticket. Due to the nature of such an offering, this service requires a self-service reservation system for distribution based on date, as opposed to the "first come first service" model of hold placed in a traditional ILS. Security and reliability is one of our highest priorities, as MuseumKey was the first museum passes reservation system to offer SSL encryption.

MuseumKey employs a complex reservation algorithm based off a few simple settings configured by staff which blocks out the appropriate days and prevents the possibility of a booking conflict. It was designed by librarians and administrators in order to address various issues in competing products by streamlining the process to maximize efficiency. Museum closing/unavailable dates are maintained centrally by us and automatically integrated into the reservation calendar.

Our forthcoming enhancements include a pro version of the software designed for consortiums and large library systems, as well as live circulation functionality where passes marked as checked in or out in the MuseumKey will correspond in the library's ILS.

[\[CLICK HERE FOR MORE\]](#)

## collectionHQ

### ESP (EVIDENCE-BASED SELECTION PLANNING)

Evidence-based Selection Planning - ESP brings the art of Baker & Taylor's collection development expertise together with the science of collection-HQ's data analytics, to create a decision support system integrated with TitleSource 360™. ESP helps public libraries to select the right current and pre-published titles in the right quantities for their communities.

**Ranking:** ESP's powerful Ranking tool harnesses the same Machine Learning methods that drive Apple's Siri, Google's Assistant, and the recommendation engines at Netflix and Amazon to predict how current and forthcoming titles will perform in the future. Predictions are drawn by analyzing key data points about each title such as the author's past performance, the BISAC Subject performance, how the author has performed in this BISAC Subject Group, reviews on the title, demand, and many more.

**Distribution:** ESP's Distribution component recommends how many of each title to buy and how to share those titles across library branches based on local circulation evidence. ESP understands that every community is different and so empowers you to create unique distribution goals, such as minimum and maximum quantities, to meet the needs of each branch.

### HEAR FROM THE JUDGES:

"This product is a game-changer for libraries. We absolutely must use tools like these in order to remain relevant moving forward in a disruptive world."

## Comprise Technologies

### SMARTPAY

SmartPAY is an Online Payment Gateway for Libraries. It allows patrons to make fine/fee payments and donations on the library's website. SmartPAY links with all leading ILS products to automatically post payments of fines, fees or other charges. SmartPAY lets you reconcile payments by an individual member library. SmartPAY raises collections because it is secure, easy, convenient, and adds a payment option that is available 24 hours a day – 7 days a week. SmartPAY features: Fine and Fee Payments, Donations for a Purpose, Pre-payment of Print Account, Convenience Fee Option. With SmartPAY, patrons can complete secure, fine, fee or other payments, and donors can make contributions, directly at the library's website. SmartPAY meets the Payment Card Industry's Data Security Standard.

[\[CLICK HERE FOR MORE\]](#)

## Comprise Technologies

### SMART KIOSK

Smart Kiosks are self-service stations for PC Sign-UP, ILS related payments, and printing. Smart Kiosks offer a variety of services; patrons can manage their accounts, purchase merchandise, sign up for a PC, pay for copies/fax/scan/print, pay fines & fees and make donations. Every payment made without staff involvement yields true cost savings! Self-Service Smart Kiosks are an easy and convenient way to accept and manage payments for services and goods offered in the library. Smart Kiosks integrate fully with Smart Terminal credit card readers so libraries can offer patrons payment card service. Smart Kiosks meet the Payment Card Industry Data Security Standard.

## The Crowley Company

### CROWLEY IMAGING DIGITIZATION SERVICES

As a repository for historical and collect-ed works and records, libraries comprise

a significant portion of Crowley Imaging's digitization services. Since 1980, Crowley has served the preservation needs of archivists, librarians, historians and records managers by digitizing important cultural heritage documents, newspapers, maps, books, microfilm, photographs, slides and other media. Crowley's own history is steeped in micrographics, ensuring a full understanding of the analog-to-digital cycle and its challenges. Specializing in high-volume conversions as well as the rare and valuable, Crowley has unique access to the best capture solutions as a reseller of Zeutschel, InoTec and other high-end brands and as the manufacturer of Mekel Technology and Wicks and Wilson scanners. Production efficiency, an in-depth understanding of image quality, forty years in the industry and low operator turnover are just a few of the advantages clients gain when partnering with Crowley Imaging.

Depending on collection requirements, Crowley provides the option to scan on-site or in-house while always working to ensure that the final images meet the project requirements and can be made accessible as the library sees fit.

Specific digitization services for libraries include:

- Paper scanning
- Bound book scanning
- Archival preservation scanning
- Microfilm and microfiche scanning
- Graphic arts collection scanning (photos, slides, films, plates)
- Image hosting and viewing

## The Crowley Company

### MACH-SERIES MICROFILM SCANNERS

Having introduced the world's first production microfilm scanner in 1989, Mekel Technology and Crowley continue to offer the most advanced rollfilm scanning systems on the market. The MACH-series scanners are a staple for libraries with large collections of microfilm as they are designed to handle a wide variety of 16mm and 35mm microfilm types, Mekel scanners provide superior image quality (FADGI-rated) at high scan speeds. Powered by the custom Quantum software suite for capture and processing, the MACH-series scanners deliver quality digital images from even the worst sets of microfilm (poor original images; improperly stored; film with decay). Windows 10 support, easy job set up, template creation, image editing and OCR capabilities are just a few of the features that set the MACH-series apart. The MACH10 is known for its image quality and speed, capturing a 100' roll in 2.5 minutes with up to 600 dpi true optical resolution. The MACH12, used in libraries and service bureaus to fulfill National Endowment for the Humanities (NEH) grants and to meet National Digital Newspaper Program (NDNP) requirements offers up to 750 dpi true optical resolution. The MACH5 and the new MACH Mini models round out Crowley's current microfilm scanner MACH-series. Proving their reputation as a workhorse scanner requiring minimal

maintenance, prior MACH generations are still providing high-volume digitization services at libraries throughout the world after more than a decade.

[\[CLICK HERE FOR MORE\]](#)

## The Crowley Company

### ZEUTSCHEL ZETA OVERHEAD SCANNER

The "plug in and scan" Zeutschel zeta scan system has become a patron and staff favorite in libraries around the world. Since its 2011 introduction to the market, the zeta has gained popularity for its ILL-compatibility, compact size, media flexibility, image quality and touchscreen ease. In 2019, Zeutschel released a Windows 10 version boasting a 21.5" full HD resolution touch panel, an even faster processor and enhanced software features. Used for both walk-up and back-office digitization, A2-sized bound or loose material is placed face-up on the split cradle for spine protection. Intuitive instructions are easy to follow and produce scans in color, grayscale or black and white. Scans can be printed or saved via USB or electronically delivered as images or single/multi-page PDF's. Resolution ranges from 300-600 dpi. The overhead camera works independent of ambient light with short scan cycles and high-quality image output. Each scan can be previewed on the high-res touchscreen display; letter and gutter distortions are automatically corrected by Zeutschel's Perfect Book software. Cost-savings are quickly accrued via: reduced/eliminated wear and tear

on the original media; reduced staff time (requires little training and no daily maintenance); reduced paper/toner fees as patrons tend to use electronic delivery vs. print; and increased energy efficiency. The zeta scan system can also be fitted with any traditional pay-per-use system for enhanced savings and earnings.

## e-ImageData Corp.

### SCANPRO ALL-IN-ONE MICROFILM SCANNER

The ScanPro® line of microfilm scanners has been and continues to be the micrographics equipment of choice in the world's most prestigious libraries and universities. And, for good reason. Included are features like ABBYY® FineReader OCR, PowerScan Productivity Suite comprised of WORD Search™, INFO-Link™, Copy-to-Clipboard, and searchable PDF multi-page - all important features for on-demand reading, scanning and printing. Additionally, the handy SPOT-Edit™ tool selectively adjusts brightness and contrast within a document and the AUTO-Adjust™ tool which, with a single click, automatically adjusts brightness and contrast as well as straightens and crops the document - both exclusive features. The ScanPro equipment is built to last resulting in the highest reliability rating in the industry, and is backed by the industry's leading three-year factory warranty. The ScanPro scanners are universal, supporting all film types including 16mm, 35mm and cartridge roll film, fiche, jacketed fiche, aperture cards, micro opaques and ultrafiche. The ScanPro

**FLIPSTER**

Flipster is a digital magazine platform that allows people to browse the latest issues of popular magazines, from any location, courtesy of the library. Flipster offers an easy, browse-able reading experience for people of all ages and experience levels. Users can browse magazines by category as well as perform searches for specific publications. The table of contents contains links for quick access to articles of interest and links from advertisements and articles within magazines are hyperlinked, opening in separate tabs when clicked. In addition, there is an option to zoom in and out for better

readability. Flipster digital magazines are accessible from school, home, work or on the go and can easily be downloaded for offline reading using the enhanced Flipster iOS and Android apps available through Google Play and iTunes. App users can easily locate libraries nearby by enabling geolocation or searching by library name, postal code, city or state.

Popular Flipster titles include: The Atlantic, Better Homes & Gardens, Car & Driver, Consumer Reports, Country Living, Cricket, Entertainment Weekly, Ebony, Elle, Esquire, Forbes, Fortune, Golf Magazine, Good Housekeeping, Harper’s Bazaar, Highlights, Men’s Health, National Geographic, Newsweek, People, Prevention, Popular Mechanics, Reader’s Digest, Rolling Stone, Road & Track, Runner’s World, Science News, Sports Illustrated, Southern Living, TIME, Woman’s Day, US Weekly and many others.

## Generation Fifth Applications

### LIBRARY ARCHIVAL SOFTWARE (LAS)

Generation Fifth Applications (GFA) offers the industry leading solution for library archival and retrieval software in high density storage facilities. GFA software was the first to implement the ultra-efficient tray concept to scan, verify, shelve, store, locate and retrieve books and

other items efficiently based on barcodes and sizes. Using GFA's flagship product, Library Archival Software (LAS), clients have reported that accessioning new volumes can be scanned at speeds up to 500/hour and verified at up to 800/hour! GFA's new Business Intelligence Module with Interactive Dashboards offers Excel integration, customized queries and reports that can be published directly to the web using standard output formats like PDF and HTML. Over 30 major university and library archives including Library of Congress and New York Public Library, Harvard, Yale, ReCAP and Oxford trust GFA software to manage over 50 million volumes and "never lose a book."

## Huston & Company

### CUSTOM FURNITURE FOR LIBRARY ENVIRONMENTS

Huston & Company designs and builds custom hardwood furniture for library environments. We focus on the design process, wood selection, craftsmanship & finish, incorporating details not found in mass-produced furniture.

- Design services include drawings, estimates, finish samples. Usually free of charge to our clients. We can provide models, prototypes and 3-D imaging.
- We use premium hardwoods and other materials like specialty veneers, stone, glass, metal & laminates.
- We work with architects, designers, project teams to create custom

furniture that meets the functional & aesthetic needs of each project. Finding solutions is part of our everyday.

- Our furniture is created by hand, one piece at a time.
- The relationships we develop with our clients are fundamental to the process of building custom furniture. We are approachable & communicative.
- Our furniture is designed & finished to withstand hard, regular use in libraries. Each piece of Huston furniture will last for generations.
- Given the quality & longevity of our furniture, our pricing is very competitive long-term. Our furniture lasts for generations; you'll replace less over time, reducing future spending.
- Our projects range in scope from individual pieces to complete furnishings for libraries: conference rooms, admin offices, circulation, study & reading rooms, cafes and more.

### HEAR FROM THE JUDGES:

“Huston & Co. made all of the furniture for our library's 2004 renovation/addition. It's gorgeous (solid cherry) and has been incredibly durable. I've always found their prices to be reasonable and they are an absolute joy to work with. Highly recommended.”

**BLOOM'S LITERATURE**

With a dynamic design, exciting features, and a wealth of relevant content, Bloom's Literature is a vital tool for enriching the study of literature. It offers complete, yet curated, coverage of the most studied authors—from William Shakespeare to J. K. Rowling—and their works.

In addition to its wide range of reference essays and scholarly criticism, Bloom's Literature provides students and researchers with a variety of other ways to research, study, and explore literature:

- Hundreds of full-length videos of classic plays and films
- A comprehensive Shakespeare Center
- 4,000+ Publishers Weekly author interviews and Publishers Weekly Radio podcasts
- Essay topics/discussion questions on 10,000+ topics
- Literary Classics eBook shelf with the full texts of 1,000+ classic works
- Bloom's How to Write about Literature section
- Thousands of full-text, searchable poems with corresponding analytical entries

- In-depth entries on literary topics and themes
- Information on 49,000+ literary characters
- Harold Bloom's Canon of Literature
- Student and educator curriculum tools, including "Teaching Literature through Film"
- And much more.

Bloom's Literature is searchable by all major educational standards and offers a variety of integration options. The authoritative source list includes thousands of scholarly and critical books, peer-reviewed journals, and other periodicals.

**HEAR FROM THE JUDGES:**

"This is a very comprehensive literary resource and our library is fortunate to have it as a part of our offerings. Over the years that we have had this subscription Infobase has added a significant amount of information and has re-designed the user interface to make navigation easy to use. The Shakespeare Center, full text classics and poems, videos, themes, and of course the Bloom's essays are extremely useful to high school and college students. The technical and account support received is excellent and our library highly recommends them."

**[CLICK HERE FOR MORE]**

**INNOVATIVE RESOURCE SHARING (INN-REACH)**

Innovative Resource Sharing is a cost-effective way to expand your collection, automate manual workflows, and provide an easy-to-use discovery experience for your patrons.

By joining a resource sharing network, your users are instantly connected to millions of new titles, without the library investing in new materials. These resources are displayed in a shared discovery interface for an intuitive process that enhances the user experience. Users simply search the catalog, and easily check-out or place holds on materials —without any additional work by library staff. Patrons, students, and faculty receive physical materials in as little as two days, and electronic materials almost immediately.

This user-initiated consortial borrowing system makes lending and borrowing materials between libraries as easy as local hold requests. Libraries who join see an increase in their circulation as a result of the expanded collection and easy-to-use shared catalog. Best of all, participating libraries see their shared resource expenses reduced by 70%.

### MOBILE WORKLISTS

Mobile Worklists is an iOS mobile app that makes materials handling and management tasks more efficient for library staff. Its flexible features help staff complete large-scale projects faster and establish more efficient day-to-day workflows for libraries of all types and sizes.

Fully cloud-based, Mobile Worklists provides new functionality for traditional library operations, such as weeding, labeling, ILL delivery tracking, displays, relocation projects, managing new

collections, and generating lists of course reserve items.

Features include:

- Check In capability from my lists
- Create lists of records in the app
- Scan barcodes with the camera on your mobile device using integrated barcode scanning from Manatee Works, Inc.
- Manage complex projects with built-in list management capabilities
- E-mail lists to staff or library users, with the option to attach as a CSV file
- Send lists to Sierra and update them in Sierra using Global or Rapid Update
- Telepen and EAN barcode Support

## LEID Products

### SMARTAXESS™ LIBRARY SYSTEMS

SmartAxess™ Library Systems, powered by LEID Products, enable libraries to extend hours, provide self-service, and ensure 24/7 accessibility of books and materials to patrons when they want and

need them the most.

With SmartAxess Library Systems:

- Offer a “new location anywhere” when budget won’t allow for a new branch.
- Provide patrons with self-service and extended hours, through secure access 24/7.
- Maintain accurate inventory control and tracking, for more efficient operation.
- Offer more patron access while minimizing staff investment.
- Patrons can order materials online to be delivered to the remote locker most convenient to them, with access via the self-contained kiosk using their library card or a code on the screen.

SmartAxess Electronic Access Lockers can be installed practically anywhere – in malls and retail facilities, school campuses, commuter stations, and other locations – just like ATM machines.

### HEAR FROM THE JUDGES:

“The quality of the product physically is impressive. The thing works and very rarely has any issues.”

## Library Market

### LIBRARYCALENDAR

LibraryCalendar is a fully integrated event management and room reservation system, built upon a single validation engine, insuring real-time availability of both rooms and equipment. Granular access permissions provide each staff member with the appropriate access to the system to perform their given role. Flexible settings allow each library to configure the system to adhere to library workflows. Event managers can quickly create events and programs in the system, and our robust taxonomy system automated much of the time consuming work, such as creating event descriptions, uploading images, or setting up registrations. LibraryCalendar's event structure also allows for easy editing of events and event series at any time, even if patrons have already begun registering. The customized patron-facing calendar is designed to match the look and feel of the library's website, providing an elegant, intuitive UX for users which renders appropriately on any platform. The Room Reservation system extends beyond simple meeting room reservations, allowing for study room reservations, maker station reservations, and even equipment reservations, all integrated into the single platform. Rounding out LibraryCalendar's comprehensive features list are flexible reporting tools, ILS and eCommerce integration, data migration from older

calendar systems, and comprehensive RSS, XML, and JSON feeds.

### HEAR FROM THE JUDGES:

“I can't say enough good things about this company. On several occasions we have needed custom features, and they have always either made it happen quickly or have rolled it into the next update.”

“They were very pleasant to work with and always responded to a message that day if not within the hour. The price, while a little bit more than we were paying for our old platform, is made up in the amount of staff hours required to maintain the calendar. It has easily cut my time down to a quarter of what it had been. I do love that it is a platform created for libraries by people who actually have worked in libraries! Who else would ever be able to know what we need day to day than someone who has experienced it?”

[\[CLICK HERE FOR MORE\]](#)

## Mackin Educational Resources

### MACKINVIA

MackinVIA is a free digital content management system created to provide schools with easy access to their collection of eBooks, audiobooks, read-alongs, databases, websites, and videos.

Boasting an attractive, student-centric design, patrons use a single login, to view and manage all of the school's digital resources on any desktop, laptop, or mobile device.

MackinVIA provides access to nearly 3 million digital resources in a variety of formats.

eBooks are available in a traditional format with the added ability to host EPUB3 fixed-format materials and can be viewed on the platform as the authors and illustrators originally intended.

Interactive eBooks integrate video, audio, animation, and activities with the text to enrich the learning experience. Included in this genre is Mackin Read-Alongs™, an eBook enhanced with em-

bedded audio, professionally performed by voice-actors and synchronized to offer automatic page-turn functionality. Professionally narrated digital audiobooks can be streamed for on-demand listening or downloaded for offline enjoyment.

## Mitinet Library Services

### BESTMARC

Librarians strive for overall excellence in their library, Mitinet's cloud-based BestMARC is the powerful and easy-to-use tool that can help. Libraries have tremendous success with quality data making circulation and discoverability a breeze. With BestMARC's many sharing capabilities you're able to create cataloging processes for editing and enhancing MARC records and share those with your team for consistency.

Create new records from the built-in record source, or cataloging from scratch. Some of the record editing features include:

- Automated error checking
- Subject Explorer to find and add new LC, LCAC, Sears, and Genre headings
- Full MARC editing of leader, control fields, and data fields
- Built-in tips, examples, and links to official MARC documentation

Record enhancements to automatically update your catalog with the latest:

- National and state Award Notes
- Subject heading terminology
- Reading Programs (Accelerated Reader, Fountas & Pinnell, Lexile, Reading Counts)
- RDA update and standardization
- MARC Record Repair for common problems

Reporting:

- Charts showing your organization's usage
- Database diagnostic

Powerful batch editing features let you quickly build, edit, and share your effort with colleagues.:

- Global editing
- Regular Expressions support
- Workflows to group Global Edits and Enhancements together into single tasks
- Custom templates
- All of which can be shared with your team

Reporting:

- Charts showing your organization's usage
- Database diagnostic

BestMARC sets the standard in metadata management.

## Scannx, Inc.

### SCANNX BOOK SCANCENTER

Scannx is the leading developer of book-edge scanning solutions for library patrons and staff. Its innovative software incorporates ease-of-use, reliability, security, accessibility, device monitoring and measurement, and IT productivity tools. With only 3% of the 170 million pages scanned going to print, libraries are saving paper and toner costs while saving trees.

The scanner's patented book-edge design protects the book spine from dam-

age. Its intuitive interface guides users through the scanning process including choosing file format, image quality, file name and scan-to destinations. The system automatically crops, straightens and orients pages with text. Its translation service converts scanned text from one language to another. Its “Accessibility” features guide visually impaired users through the scanning process. Scannx systems connect to coin, bill and credit card payment systems.

Scan books into PDF, searchable PDF, Word and MP3 file formats. Email scanned files automatically or send them to USB drive, Google Drive, smartphones, tablets, network folders, printers, and fax. Scannx offers OCLC certified software connectors to Tipasa, WorldShare ILL, Article Exchange and ILLiad.

Scannx offers its cloud services on Microsoft Azure, thus ensuring the highest levels of security and reliability to track usage, push updates, enable features and manage warranty renewals.

**EUROPA WORLD**  
www.europaworld.com/pub

Europe World Plus is the online version of the Europa World Year Book and the new online Regional Surveys of the World series. First published in 1926, the Europa World Year Book is now one of the world's leading country reference works, covering political and economic information in more than 250 countries and territories from Afghanistan to Zimbabwe. The Europa Regional Surveys of the World offer in-depth, expert analysis in regional, sub-regional and country level.

**Europa World Plus provides:**

- Regularly updated information, providing all the background to the world's major events
- A full range of sophisticated search and browse functions, allowing enhanced accessibility to the data-rich content
- The ability to directly compare multivariate statistics in graphs and tabular form
- Interactive visual features, including maps, flags and identifiable logos
- Impartial coverage of issues of regional importance from acknowledged experts
- A vast range of up-to-date economic, political and statistical data
- Book and periodical bibliographies to direct you to further research
- Extensive directory of research institutes specialising in the region
- Ability to search by content type across regions
- Thousands of click-through web links to external sites

★★★★★ (4.5 out of five stars)  
"Perhaps the most respected reference work on world affairs... The online edition adds value by incorporating more frequent updates than the print edition and by offering several unique features for search capabilities... Easy and intuitive... The print and online bundle is a great deal!"  
— The Christian Science Monitor

"Europa World online combines the authoritative text of the Europa World Year Book with equally reliable but current information in an easy-to-use and well-structured interface... Users will be grateful to find authoritative statistical information, and the statistical data will be a boon to researchers seeking comparative country statistics, highly recommended for all libraries!" — Library Journal

### Taylor & Francis Group

The screenshot shows the website for 'History of Feminism' by Routledge. It features a search bar, a list of subject areas covered (Education, Politics and Law, Religion and Belief, Literature and Writing, Society and Culture, Movements and Ideologies, and Women of Color), and a list of key features such as '1,000+ self-chapters of primary and secondary source content', 'Fully searchable text and detailed metadata', and '16 thematic essays from experts in the field'. The website is designed to be user-friendly and accessible.

#### HISTORY OF FEMINISM

History of Feminism offers a rich trove of feminist scholarship, primary research, historical context, and notable figures, wrapped in a handsome and accessible package. Researchers interested in the historical development of feminism and those in women's studies and related

interdisciplinary programs will find the resource immensely valuable.

This collection brings together primary and secondary materials to aid the study of the long nineteenth century of feminism (1776-1928). The collection includes:

- More than 170 volumes of primary source collections, available here in electronic format for the first time
- These original source materials include original source materials from Pickering & Chatto, acquired by Taylor & Francis in 2015
- More than 1,000 chapters of secondary book content
- Over 100 journal articles from a range of Taylor and Francis journals
- 16 newly commissioned thematic essays by experts in the field
- Short introductions that outline the 8 key subject categories

Some key topics from the site:

- Race, Empire and the Making of Western Feminism
- The Campaign for Women's Suffrage in Britain
- Women's Movement's and Ideologies in the long 19th Century
- Feminism and Women's Work, 1776-1928
- Prostitution and the Contagious Diseases Act

#### HEAR FROM THE JUDGES:

“Great resource! Very user-friendly and well organized platform. Wonderful images. Excellent coverage.”

### Today's Business Solutions, Inc.

#### EPRINTIT

ePRINTit is a simple solution that does not require special printers or hardware. Print to any printer, from any internet-enabled device. The ePRINTit solution allows users to effortlessly print documents, emails and web content from any internet enabled smartphone, tablet, laptop, or desktop directly to your organization's existing printers. Users can send documents to your printers from any location—inside or outside of your organization's infrastructure.

- Web Page Printing: The ePRINTit system includes a self-service website that allows printing without any print drivers.
- Smartphone & Tablet Printing: With ePRINTit, users can print from their smartphones/tablets using our mobile print application.
- Email Printing: Users simply 'forward' any email message with attachments. Automatic reply email is sent from ePRINTit with a private release code. User enters private release code at the printer to release their print job.
- Server Software: Web pages facilitate a unified printing experience for your organization.
- Universal Print Driver: Users with advanced printing requirements can download and install a single print driver that works with all of your Web-Print configured printers.
- Provides a centralized printing service by allowing users to print from any device and pick up their documents at the most convenient on-site printer.
- ePRINTit is secure: All print data requests are transferred and encrypted using secure SSL communication.
- Easy-to-use from any device

#### MYPC WITH EASYBOOKING & PAPER CUT FOR COMPUTER RESERVATION & PRINT MANAGEMENT

TBS's computer time management MyPC with unrestricted types of reservations—walk up, queue-based, guaranteed, remotely (from home or mobile devices) or specific computer. Queued patrons get text messages when their reservation is available. TBS ILS SmartConnect checks the entire patron record-making decisions on rules priority or simultaneous rules & groups users by specific rules or profiles. The validation module can alert or block patrons with outstanding fees, fines & overdue items at login. Central server management (which runs as a service) & a Staff Portal with browser-based connectivity, a centralized dashboard to manage

print, guest passes, patron re-printing & staff release of patron print jobs. The MyPC portal features a single view of computer areas, locations, or buildings in the system allowing staff to perform daily functions from anywhere. MyPC integrates with PaperCut & both are compatible with Windows & MAC on a SQL platform for cumulative statistical reporting. PaperCut offers anonymous printing, & automatic login. Real-time fleet management lets IT oversee all output devices & vending kiosks from any location. Features standard windows printing, using standard. Centrally submitted print jobs can be released anywhere within the system for Follow-Me printing.

## Today's Business Solutions, Inc.

### SCANEZ SCAN STATION

The new TBS ScanEZ simple scan station allows patrons to scan STANDARD to smart devices, email, USBs, printers, fax, Box, DropBox, One Drive, Google Docs, & more. Standard scanning file formats include DOC, JPG, PNG, TIFF, GIF, PDF, Searchable PDF, PDF/A & more.

New Image Enhancement functionality revives old photos and documents by analyzing the sharpness, contrast, color, and saturation on the fly to give the patron a revived image or document. Restoring memories that could have been lost.

A multilingual interface that allows users to switch on-screen text to one of 25 different languages, & a Multilingual Translation Service to translate scanned text from one language to one of 60 supported languages. Translated files are sent to the user as a Microsoft Word file, along with a subset of languages for MP3

audio files, with a constantly growing catalog of languages.

ABBYY® Fine Reader OCR for unmatched Optical Character Recognition & accuracy for searchable PDFs and Word documents, with 192 languages standard for OCR Multilingual capabilities. Accessibility features make it easy for visually-impaired & blind to use the station with a magnifier, narrator & high-contrast scheme.

Enhanced Authentication via LDAP, SMTP, Gmail, Facebook & more. Features a web Portal for centralized reports at no additional charge, and a Management Dashboard for instant remote access to every station within your fleet, all from your desk or mobile device.

[\[CLICK HERE FOR MORE\]](#)

## Today's Business Solutions, Inc.

### TBS-KIOSK

The TBS-9900 Payment Kiosk series features a reduced footprint. This print release system does not require a computer for print release or large cabinets, maximizing valuable floor space. The kiosks consist of coin, bill & credit card payment options along with a CPad device that controls access & enforces payment for copy, print, scan, and fax all from a single vending device. The kiosk is sturdy & wears well in a public use environment with clean cable management. Giving patrons one user interface to conduct their transaction, simplifying the entire process.

These units feature a secure PCI compliant credit card terminal. Credit card transactions are processed on a secure cellular network at a low micro-transaction rate per swipe with no minimum fees. Each terminal supports EMV Chip, Swipe,

NFC (Apple Pay, Android Pay & More).

Optional upgrades include a high capacity coin tubes & bill recycler that gives back change in coin & bill, enabling users to utilize larger bill denominations without depleting the tower. This system automatically replenishes itself with coin & bills, elevating staff from having to constantly be filling the coins & bills within the kiosk.

Audit receipts can be printed from the TBS-Kiosk to reconcile funds and to account for all financial activity conducted at each kiosk, as well as providing centralized reporting for verification of activity.

## Transparent Language Inc.

### TRANSPARENT LANGUAGE ONLINE

Transparent Language Online includes 114 foreign languages, plus English for speakers of 30 other languages. In addition, Transparent Language Online includes Intermediate English for Everyone, as well as 83 non-English paired languages. In total, Transparent Language Online includes courses and lessons in 227 language pairs (255 including the transliterated forms). The courses and lessons in the program help learners develop listening, speaking, reading, and writing skills through a variety of different activities.

Transparent Language Online is the only major language-learning system that includes alphabet courses that support the learning of non-Latin alphabets. These courses strengthen a learner's knowledge of the foreign alphabet by walking them through a series of lessons and activities that instruct the name of each letter, common sounds, various forms or uses of each letter, and typing of the letters on a standard keyboard for the language. These alphabet courses are available in over 35 languages and growing, including Arabic, Dari, Farsi, Hebrew, Hindi, Japanese, Korean, Russian, Tagalog, Thai, Urdu, and Wolof.

As a fully mobile-responsive program, Transparent Language Online is accessible

on tablets, phones, and computers and is appropriate for academic, business, or travel purposes and for use by learners of in grade 3 through adult. A children's language-learning program, KidSpeak, is also included.

#### HEAR FROM THE JUDGES:

“Transparent Language Online provides a robust suite of language learning tools across so many languages. The interface is intuitive and easy to use for so many of our users. The support staff is very responsive and works with us to develop the training and other materials needed to support our language learners across the state. They continue to improve the platform and increase the amount of languages and activities for each of the languages. The customization of digital and print marketing materials really helps us to increase awareness of these quality resources. We are really happy with the product, the team and we are all working together to increase usage.”

“Everything from the range of languages offered to the practical arrangement of lessons is stellar. It's evident that the company works to keep current with consumer trends as it continues to develop, rather than leave the product to coast idly.”

Weigl Publishers Inc.

#### AV2 MEDIA ENHANCED BOOKS

AV2 Media Enhanced Books bridge the gap between print and digital with multimedia features that excite and inspire even the most reluctant of readers. Each physical AV2 book includes an access code that opens a free interactive ebook that lets readers explore online videos, weblinks, slideshows, activities, and quizzes.

Each AV2 book contains full color images that spark student excitement and

create meaningful connections with the text. AV2 books for readers in kindergarten to grade 2 are formatted in easy-to-read sentences and include a list of the content and Fry words for readers to focus on as they make their way through a book. The online content for the kindergarten to grade 2 books also provides audio of each spread being read aloud.

Along with body text and vibrant images, each AV2 book for readers in grade 3 and beyond includes a selection of numerical and geographical infographics, maps and timelines, hands-on activities, and quizzes. The AV2 catalog covers a wide variety of topics within science, social studies, math, language arts, sports, fiction, and high interest.

The digital features included with each AV2 title are chosen to excite and inspire a love of reading and learning. Readers who wish to experience a book's content in a different way or wish to learn more about what they are reading can use the audio, videos and weblinks to expand their reading experience. Hands-on activities support kinesthetic learners' understanding of the content.

#### AWE Learning

#### AFTERSCHOOL EDGE PLATINUM

AfterSchool Edge™ Platinum (ASE Platinum) was launched in January 2019 to provide new digital learning resources to children ages 6 - 12. As an enhanced version of our AfterSchool Edge™, ASE Plat-

inum features more than 75 brand-new educational software titles, along with new interfaces, avatars, and animations. The interface themes include the beach, arctic, and robotics. All content is categorized by STREAM (Science, Technology, Reading, Engineering, Arts, Math). As a plug-and-play multi-touch 20-inch touchscreen or tablet device, the workstations are ready to go out of the box, providing more time for learning!

Children can read or listen to poetry or non-fiction and fiction e-books, practice their handwriting, including cursive, learn about cyber safety with Garfield, improve their typing skills, learn coding skills, learn about pollination and states of water with Sid the Science Kid, and much more! All content is interactive, easy to navigate, and extremely engaging for the users.

AfterSchool Edge™ Platinum comes with homeschooling resources to help integrate the workstations into weekly lesson plans. Additionally, library staff can access the Customer Portal to track usage statistics and illustrate their return on investment. Increase the number of software titles available to your users by purchasing an Add-On Bundle, including coding!

## Comprise Technologies

### SMART ACCESS MANAGER (SAM)

Smart Access Manager (SAM) is for managing Public-Use Computers in Libraries. SAM's complete, fully integrated, comprehensive functionality empowers patrons with self-service, relieves library staff of babysitting public PCs, and more efficiently recovers the library's costs for printing and copying. SAM's web-based architecture allows the simplicity of a single, centralized database and configuration engine while providing the flexibility required in a spectrum of library settings. SAM converts all print jobs to a PDF format which eliminates dependence upon local print drivers and enables patrons to preview their work. SAM also supports multiple payment options. Its' account-based system utilizes patrons' existing library card numbers rather than requiring the purchase of stored value cards. The account-based design enhances circulation software by allowing the payment of fees, fines, print or other transactions directly from the patron's SAM account without staff intervention. SAM is easy to use! Patrons simply log on by entering their library card number. SAM

meets the Payment Card Industry's Data Security Standard.

[\[CLICK HERE FOR MORE\]](#)

## Comprise Technologies

### SMART MONEY MANAGER (SMM)

Smart Money Manager is a complete, fully integrated Point of Sale System for financial transactions specific to a library environment. It recognizes patron accounts and links with leading ILS software to check, display, and post payments for fine/fee transactions or other charges. The integrated feature eliminates dual entry, reduces errors, and in doing so, saves time for staff in addition to producing accurate reports. Smart Money Manager processes cash, check, or payment card transactions as well as refunds. It displays a list of ILS fees, library merchandise, rentals, or other charges that can be paid through an easy to use interface. In addition, Smart Money Manager offers fine/fee waive capabilities. It is a software solution that runs on your existing service desk PCs and compatible point of sale hardware. No longer do you need standalone cash registers when you have the Smart Money Manager POS system. Smart Money Manager meets the Payment Card Industry's Data Security Standard.

## PressReader

### PRESSREADER

PressReader offers unlimited access to the world's best content without ads or paywalls or incomplete story snippets. Users get access to more than 7000 of the world's top newspapers and magazines as soon as they're available on shelves. PressReader pays publishers fairly for all of that content, which helps support the production of quality journalism. PressReader now has over 14 million monthly active users via the web and app experience and our users read over 4 million issues, monthly – and importantly, our publishing partners were paid for every one of those 4 million issues.

Librarians are the gatekeepers of information, and they, more than anyone, recognize the value of newspapers, magazines, and quality content as a whole.

With PressReader's platform, libraries are able to offer their patrons thousands of sources. PressReader lets these patrons access news from around the globe from over 120 countries and translates these sources into over 18 languages. Supporting journalism, PressReader is proud to play a role in democratizing access to information and empowering readers.

We believe in the value of good content and it's about giving readers more seamless access to quality, trusted sources, and while ensuring those sources are paid fairly.

## Tech Logic

### SELF CIRC TRAK

Every library knows that keeping the catalog up-to-date saves patron frustration and preserves library funds wasted on unnecessary replacements.

Tech Logic's selfCIRC TRAK Shelf Management Solution saves countless hours spent checking printed reports to locate materials shown in the catalog as lost,

missing, trace, claimed return, or other exception statuses.

Libraries can harness the built-in power of RFID to drive shelf management of the collection. Every real-time scan of the shelves turns up materials in exception statuses or materials that should have been checked in, placed in transit, trapped for holds, or shelved incorrectly.

Tech Logic's portable, ergonomic self-CIRC TRAK Shelf Management Solution interfaces wirelessly with an ILS to check real-time item status information for shelved materials. Real-time means no more frustrating exporting and loading lists. Software simple enough for all levels of staff to use. No more fruitless searches for materials that should be on the shelf - and no more shelving mistakes that cause unhappy patrons and wasted staff effort.

## Center for Cyber Safety and Education

### GARFIELD'S CYBER SAFETY ADVENTURES

Garfield's Cyber Safety Adventures is our educational program targeted at elementary-age youth. The program is developed by the top cybersecurity professionals in the world, which sets our lessons apart from others that are available. Our exclusive partnership with Jim Davis and Garfield allows us to connect with children through a character they already know and trust. Our goal is to teach youth how to keep themselves safe online and how to use the internet and internet-connected devices responsibly.

Lessons come in a ready-to-teach kit for librarians, teachers, and youth leaders. There is no training required to lead the program. Each Educator Kit contains a

video starring Garfield and his friends. Each student receives their own comic book, stickers, trading card, and more to bring home. In addition to lesson materials, each child brings home a letter. These letters are designed to open the lines of communication surrounding cyber safety at home. Garfield's Cyber Safety Adventures is taught in lessons that last approximately 30 minutes. The lessons focus on different topics such as privacy, safe posting, and cyberbullying.

These children are just beginning to regularly use the internet and exploring the variety of apps and websites available. Our preventative program will provide youth the education needed to reduce the chances that they will put themselves at risk while enjoying the internet.
