"We took part in the modern awards last year by LibraryWorks and received Product of the Year. Our company was elated over the results. We knew we had an outstanding product, but being a small company it is sometimes hard to be recognized. With the opportunity of having our application being judged by users, it provided credibility. This has led to not only greater market exposure, but greater revenue."

Sean Young, General Manager North America | Talkingtech

Lizzie Hoffman, Marketing & Promotions Coordinator | AGATI Furniture

"There are very few, if any, award programs that recognize scanning hardware for library use. For the end user, the Modern Library Awards are a helpful stamp of approval. For the manufacturer and vendor, the MLAs are a validation of quality product. It's always better when someone else gives your product a glowing review, isn't it? Crowley's gold and silver awards last year helped to open the doors of discussion at trade shows, on social media and with the press. One year later, we still get mileage out of the Modern Library Awards."

Cheri Baker, Director of Communications | Crowley
